

SOUMYA GUPTA

Data Engineer, ETL Pipelines, SQL, Python, PySpark, Azure, MySQL, Data Modelling

+91-76749-81551 • soumya1698@gmail.com • linkedin.com/in/soumya-gupta1698

PROFESSIONAL SUMMARY

Data Engineer with about 2 years of experience, building the ETL pipelines and MySQL data marts the reporting layer runs on at a manufacturing and logistics company. Works mostly in SQL, Python (Pandas, PySpark), Bash, Azure, and SAP Datasphere. Builds the OData to MySQL ingestion with Star Schema models, indexing, monitoring, and data quality checks, then automates the weekly KPI reporting. Picks up new tools fast and delivers the data marts Sales, Logistics, and Finance use to run their own reports.

TECHNICAL SKILLS

Data Engineering & Platforms: ETL/ELT, Data Pipelines, Data Ingestion, Data Integration, Data Transformation, Batch Processing, Cloud Data Migration, Azure (Databricks, Data Factory), Apache Spark / PySpark, Apache Airflow, Apache Kafka, Microsoft Fabric, Data Lakehouse

SQL, Databases & Modelling: SQL (CTEs, Window Functions, Joins, Query Optimization), MySQL, PostgreSQL, Snowflake, SAP Datasphere, Dimensional / Semantic Modelling, Star / Snowflake Schema, Fact & Dimension Tables, Indexing, Data Warehousing, Data Marts

Languages & Scripting: Python (Pandas, NumPy, PySpark, Matplotlib), SQL, Bash / Shell Scripting, OData (REST API)

DevOps, Infra & Tools: Docker, Git, CI/CD, Linux (RHCSA), Monitoring & Alerting, Incident Management, Troubleshooting / Root Cause Analysis, Power BI (DAX, Power Query), Tableau, dbt, JIRA, Confluence, Agile / Scrum, Stakeholder Communication

Data Quality & Governance: Data Quality Management, Data Validation, Data Governance, Data Lineage, Data Management, UAT, Documentation, Operational Excellence

AI-Assisted Engineering: ChatGPT / Claude (SQL Generation, Root-Cause Analysis), GitHub Copilot / Cursor (Python), Prompt Engineering

PROFESSIONAL EXPERIENCE

Sr. Executive, Data Analyst

Nov 2024 – Present

Leap India Limited, Mumbai, Maharashtra

- Wrote a validation pipeline in Python, SQL, and Bash over **20,000+ rows** that catches data quality issues early. Data errors dropped about **40%**.
- Built the OData-to-MySQL ingestion pipelines most of our dashboards run on, with Star Schema models, indexing, and monitoring.
- Automated weekly KPI reporting with Python and Bash scripts. Saved about **12 hours a week**.
- Designed MySQL data mart schemas for Sales, Logistics, and Finance so teams query the data themselves.
- Migrated SAP OLTP data into our analytical layer and documented how the incremental loads work.
- Executed **400+ UAT** test cases during the SAP S/4HANA cutover, all passed. Mapped data fields between the old and new systems.
- Advanced from Management Trainee to Sr. Executive within about **6 months**.
- Optimize SQL (CTEs, window functions, joins) for extraction and transformation, and rework slow queries regularly.
- Accelerate SQL and Python work about **20%** with ChatGPT, Claude, and GitHub Copilot.
- Configured monitoring scripts that flag bad pipeline outputs or data volumes below expected thresholds.
- Manage version control (Git) for our SQL and Python, and document the pipelines and scripts.

Data Pipeline Research Contributor

Aug 2020 – Aug 2021

Indian Institute of Technology (IIT) Delhi

- Built a data pipeline for a lung disease study and cleaned about **10,000** chest X-ray records in Python, Pandas, and NumPy.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

2016 – 2020

Gandhi Institute of Technology and Management University (GITAM), Visakhapatnam

75%

Senior Secondary (XII), AP Board of Intermediate Education

2016

FIITJEE, Visakhapatnam

92.5%

Secondary (X), CBSE

2014

Delhi Public School (DPS), Visakhapatnam

CGPA: 8.2 / 10.0

CERTIFICATIONS & TRAINING

Red Hat Certified System Administrator (RHCSA), Red Hat

Jun 2018

Data Analytics & Data Science Program, Coding Ninjas

Sep 2024 – Sep 2025

Python, SQL, Apache Spark / PySpark, Data Pipelines, Machine Learning, EDA

SAP Datasphere BDC: Comprehensive Training, Udemy

Feb 2026 – Present (In Progress)
